

ARTICLE SUBMISSION REQUIREMENTS OF THE JOURNAL

The main requirements for scientific articles submitted to the scientific-theoretical, methodical journal “KarshiSU News” are based on world standards.

1. The topic of the scientific article presented by the author (or authors) must correspond to the columns of the scientific journal “KarshiSU News”.

2. The article must have the following specific clauses within the framework of international standards:

- The subject of the article (Title)

The title of the articles should be written in capital letters and should be as short and concise as possible, clearly expressing the research subject of the article. It must be submitted in Uzbek and English languages.

- Information about the author of the article (Author information)

In this part, the author's full name, place of work and position, academic degree and title, e-mail address, telephone and ORCID number should be indicated.

- Annotation of the article (Abstract)

The short annotation of the articles is given in Uzbek and English, no more than 120-150 words (exact sciences), 150-200 words (social sciences). It covers the research problem, its relevance, the methodology used to reveal the research problem, research results, and a brief description of the author's scientific and practical contribution based on the full content of the article.

- Key words

Keywords are the words that reveal the content and purpose of the article in the shortest way possible. In order for the article to be found easily and on the first pages on the scholar.google.com or google.com, it is recommended that each of the key words be repeated 6-8 times in the body of the main text.

- The structure of the article is to be constructed as follows:

- Introduction

The introduction mainly covers the research problem, its goals and objectives. This part explains the basis of the selection of the research topic, its relevance and scientific importance.

- Literature review

The literature review is a part that shows the knowledge and imagination of the author regarding the problem under research. The literature review evaluates the scope of the existing intellectual area and on this basis the unsolved problem is identified. The literature review is mainly based on the latest journal articles in the field and other sources of information.

- Research Methodology

The research methodology consists of drawing up a general plan leading to the solution of the research problem, determining the ways of obtaining the necessary information for the research, the structure of devices, the mechanism of operation and research ethics, the research strategy (observation, experimentation, case-study, questionnaire, ethnographic, archival research, etc.), and defining a path leading to a specific solution to a given problem based on rational decision-making.

- Results and Discussions

In the results and discussion section, the new research results obtained by the author (or authors), the analysis of the new results, and the discussion of the results are to be written. This section is the main part of the article.

Conclusion and Recommendations

The proper understanding of the goals and tasks of the research and the answers to the research questions, general conclusions on the main results of the research and the general process of the research, as well as suggestions and subjects for future research based on the same research should form the basis of the conclusion and suggestions part of the article.

- References

In this section, the list of all the literature used in the research is to be put in the order [1], [2] or [3]:

- author's full name, book title, publication address, publisher's name, year, pages;
- author's name, article title, journal name, publication, year, number, pages.

3. The text of the article should be in Times News Roman font, size 14, left: 3 cm, right: 1.5 cm, top and bottom: 2 cm; It should be prepared in A4 format in 1.15 intervals. The maximum length of the article should not exceed 10 pages, and the minimum length should not be less than 7 pages, and the number of used literature should be at least from 10-15 sources.

4. The article must contain tables, drawings or pictures. The names of the table should be written in the upper part, the names of the drawings or pictures should be written in the lower part, and their source should be clearly indicated. The provision of tables, figures and pictures in the article serves as a resource to increase the quality of the article and is to be written in Times News Roman font, size 12.

5. Articles can be submitted in Uzbek, Russian, or English.

6. Uzbek letters such as **o‘, g‘, q, h** must be written in full in the text of a scientific article. **Otherwise, the scientific article will not be reviewed by the editors.**

7. All submitted articles are checked in the "Anti-plagiarism" system. Articles with less than 70% novelty (uniqueness) will not be sent to the editor and will be returned to the author. The article, corrected by the author, is sent to the editors of the journal for reprinting, along with the Anti-plagiarism result.

8. The author(s) of the article approved by the editor should transfer money in the amount of 1 base calculation (1 BHM=340,000 soums, as of February 2, 2024) to the university account and send the payment receipt to the secretary in charge.

Payment account: 400 1108 6010 4017 0941 0035 0003

STIR: 200671933

The payment receipt must indicate whether **to publish an article in the journal "KarshiSU News"** from the bank or through online payment programs.

General information;

- The author(s) are responsible for the scientific validity, reliability and plagiarism rate of the information and evidence presented in the article.
- The article will be checked. Only articles recommended by experts will be published in the magazine, articles not recommended will not be published.
- Articles that do not meet the requirements of the journal will not be reviewed by the editors.
